

# SUPPLEMENTAL INFORMATION ON NON-IFRS MEASURES AND OTHER FINANCIAL MEASURES

## SPECIFIC ITEMS

The Corporation incurs some specific items that adversely or positively affect its operating results. We believe it is useful for readers to be aware of these items as they provide additional information to measure performance, compare the Corporation's results between periods, and assess operating results and liquidity, notwithstanding these specific items. Management believes these specific items are not necessarily reflective of the Corporation's underlying business operations in measuring and comparing its performance and analyzing future trends. Our definition of specific items may differ from that of other corporations and some of these items may arise in the future and may reduce the Corporation's available cash.

They include, but are not limited to, charges for (reversals of) impairment of assets, restructuring gains or costs, loss on refinancing and repurchase of long-term debt, some deferred tax asset provisions or reversals, premiums paid on repurchase of long-term debt, gains or losses on the acquisition or sale of a business unit, gains or losses on the share of results of associates and joint ventures, unrealized gains or losses on derivative financial instruments that do not qualify for hedge accounting, unrealized gains or losses on interest rate swaps and option fair value revaluation, foreign exchange gains or losses on long-term debt and financial instruments, fair value revaluation gains or losses on investments, specific items of discontinued operations and other significant items of an unusual, non-cash or non-recurring nature.

## RECONCILIATION AND USES OF NON-IFRS AND OTHER FINANCIAL MEASURES

To provide more information for evaluating the Corporation's performance, the financial information included in this analysis contains certain data that are not performance measures under IFRS ("non-IFRS measures"), which are also calculated on an adjusted basis to exclude specific items. We believe that providing certain key performance and capital measures, as well as non-IFRS measures, is useful to both Management and investors, as they provide additional information to measure the performance and financial position of the Corporation. This also increases the transparency and clarity of the financial information. The following non-IFRS measures and other financial measures are used in our financial disclosures:

### Non-IFRS measures

- Adjusted earnings before interest, taxes, depreciation and amortization or EBITDA (A): represents the operating income before depreciation and amortization excluding specific items. Used to assess recurring operating performance and the contribution of each segment on a comparable basis.
- Adjusted net earnings: Used to assess the Corporation's consolidated financial performance on a comparable basis.
- Adjusted cash flow: Used to assess the Corporation's capacity to generate cash flows to meet financial obligations and/or discretionary items such as share repurchase, dividend increase and strategic investments.
- Free cash flow: Used to measure the excess cash the Corporation generates by subtracting capital expenditures (excluding strategic projects) from the EBITDA (A).
- Working capital: Used to assess the short-term liquidity of the Corporation.

### Other financial measures

- Total debt: Used to calculate all the Corporation's debt, including long-term debt and bank loans. Often put in relation to equity to calculate the debt-to-equity ratio.
- Net debt: Used to calculate the Corporation's total debt less cash and cash equivalents. Often put in relation to EBITDA (A) to calculate net debt to EBITDA (A) ratio.

### Non-IFRS ratios

- Net debt to EBITDA (A) ratio: Used to assess the Corporation's ability to pay its debt and evaluate financial leverage.
- EBITDA (A) margin: Used to assess operating performance and the contribution of each segment on a comparable basis calculated as a percentage of sales.
- Adjusted net earnings per common share: Used to assess the Corporation's consolidated financial performance on a comparable basis.
- Net debt / Net debt + Shareholders' equity: Used to evaluate the Corporation's financial leverage and thus the risk to Shareholders.
- Working capital as a percentage of sales: Used to assess the Corporation's operating liquidity performance.
- Adjusted cash flow per common share: Used to assess the Corporation's financial flexibility.
- Free cash flow ratio: Used to measure the liquidity and efficiency of how much more cash the Corporation generates than it uses to run the business by subtracting capital expenditures (excluding strategic projects) from the EBITDA (A) calculated as a percentage of sales.

Non-IFRS and other financial measures are mainly derived from the consolidated financial statements, but do not have meanings prescribed by IFRS. These measures have limitations as an analytical tool and should not be considered on their own or as a substitute for an analysis of our results as reported under IFRS. In addition, our definitions of non-IFRS and other financial measures may differ from those of other corporations. Any such modification or reformulation may be significant.

The chief operating decision-maker (CODM) assesses the performance of each reportable segment based on sales and earnings before interest, taxes, depreciation and amortization, adjusted to exclude specific items (EBITDA (A)). The CODM considers EBITDA (A) to be the best performance measure of the Corporation's activities.

EBITDA (A) by business segment is reconciled to IFRS measure, namely operating income (loss), and is presented in the following table:

For the 3-month period ended March 31, 2023					
(in millions of Canadian dollars) (unaudited)	Containerboard	Specialty Products	Tissue Papers	Corporate Activities, Recovery and Recycling	Consolidated

## SPECIFIC ITEMS

The Corporation incurred the following specific items in the first quarters of 2023 and 2022:

### IMPAIRMENT CHARGES

#### 2023

In the first quarter, the Containerboard Packaging segment recorded an impairment charge of \$59 million on some land (\$3 million), building (\$22 million) and equipment (\$34 million) of a CGU (cash generating unit) subsequent to the permanent closure of one paper machine in the USA. The decision was the result of the tightening market conditions which makes the CGU less profitable. The recoverable amount of the assets in operation, totaling \$39 million, was determined using fair value less the cost of disposal based on the market approach of comparable assets on the market.

In the first quarter, the Specialty Products segment recorded an impairment charge of \$1 million on some equipment related to a closed plant in the USA. The recoverable amount was determined using fair value less the cost of disposal based on the market approach of comparable assets on the market.

In the first quarter, the Tissue Papers segment record an impairment charge of \$12 million on spare parts and \$80 million on some buildings (\$19 million) and equipment (\$61 million), consequent to the strategic repositioning of its operating platform. The decision includes the permanent closure of two plants in the USA and the wind down of one paper mill. The recoverable amount of \$130 million was determined using fair value less cost of disposal based on the market approach of comparable assets on the market.

### GAIN ON ACQUISITIONS, DISPOSALS AND OTHERS

#### 2023

In the first quarter, the Tissue Papers segment recorded a \$2 million gain from the sale of some machinery and equipment related to a previously closed plant in the USA.

#### 2022

In the first quarter, the Specialty Products segment recorded a \$6 million gain from the sale of land and a building related to a closed plant in Canada.

### RESTRUCTURING COSTS

#### 2023

In the first quarter, the Tissue Papers segment recorded additional costs totaling \$1 million related to asset relocation and severances.

#### 2022

In the first quarter, the Tissue Papers segment recorded additional costs totaling \$1 million related to asset relocation and severances.

### UNREALIZED LOSS (GAIN) ON DERIVATIVE FINANCIAL INSTRUMENTS

In the first quarter of 2023, the Corporation recorded an unrealized loss of \$1 million, compared to an unrealized loss of \$7 million in the same period of 2022, on certain derivative financial instruments not designated for hedge accounting. The Containerboard Packaging segment recorded an unrealized gain of \$1 million in the first quarter of 2023 and an unrealized loss of \$8 million in the same period of 2022, due to a steam contract embedded derivatives related to our Niagara Falls containerboard complex. Corporate Activities recorded an unrealized loss of \$2 million in the first quarter of 2023 and an unrealized gain of \$1 million in the same period of 2022 due to the financial hedging contracts for natural gas purchases.

**FOREIGN EXCHANGE GAIN ON LONG-TERM DEBT AND FINANCIAL INSTRUMENTS**

In the first quarter of 2023, the Corporation recorded a gain of less than a million dollars on its US\$ denominated debt and related financial instruments, compared to a gain of \$1 million in the same period of 2022. This is composed of foreign exchange forward contracts not designated for hedge accounting.

**SHARE OF RESULTS OF ASSOCIATES AND JOINT VENTURES****2023**

In the first quarter, the Tissue Papers segment recorded a gain in "Share of results of associates and joint ventures" of \$9 million from the sale of an investment in a non-significant joint venture.
