

A range of solutions to protect your eggs

From farm to store

Cascades
fresh™

GUARD

Powered by sustainability

With over 60 years of expertise in materials recovery, Cascades understands the immense potential of the materials we work with. Partnering with us opens the door to a wide range of sustainable solutions tailored to meet all your packaging requirements, from the farm to the factory to the store.

By choosing our unique range of packaging solutions, you are helping to preserve your eggs and the planet. Sustainability is at the heart of Cascades packaging solutions design. Our egg trays and covers are made from 100% recycled fibers and have been prequalified as widely recyclable by How2Recycle®.

Our certifications and pre-qualification

Cascades Fresh Guard™ filler flat 30,
Cascades Fresh Guard™ deep filler flat 30,
and Cascades Fresh Guard™ topper 30,
are certified by the Biodegradable
Products Institute (BPI, Certificate #10528727).

Experts all the way

Protection you can trust

Established in 1985, our research and development center is composed of a team of 75 dynamic and multidisciplinary specialists. Throughout and following the development of our products, our laboratory enables us to conduct rigorous tests related to transport, compression, torsion, and shocks, ensuring that our packaging excels in all conditions.

Xpertise you can count on

At Cascades, our team of innovation and marketing experts stands ready to collaborate with you in developing tailored solutions that meet your requirements. With strategically positioned production facilities spanning the Northeast and the Midwest, we provide adaptable production capacity to consistently meet market demands.

Standards that you can be proud of

Our commitment to sustainability and quality is unwavering. Since 2019, Corporate Knights has recognized Cascades as one of the 100 most sustainable companies in the world. Among the 6,733 organizations analyzed, Cascades ranked 38th in 2024 and maintained its leading industry position, being named first amongst organizations in the *Containers and Packaging* sector.

All chemical additives intentionally added to our manufacturing processes have the appropriate FDA status for food contact as intended. Our Indiana plant proudly holds Safe Quality Food (SQF) certification. Food safety and sanitation audits are conducted at all our other facilities.

Cascades Fresh Guard™ Egg Pack 2x12

Discover our detachable 2x12 packaging, designed to offer convenience and space-saving benefits. Separable into two parts of 12 eggs each, it helps save space in the refrigerator and encourages consumers to stock up. A winning solution for you and your customers.

- **North American exclusive**
- **Sealable for tamper-proof protection**
- **Recyclable and made from 100% recycled fibres**
- **Space for a customized label**
- **Holds 24 eggs altogether**

Please refer to the table on the reverse side for product specifications.

Detachable into two 12-egg trays

Stackable

Cascades Fresh Guard™ Egg Pack 24 and 30

These egg cartons can be sealed with shrink-wrap film, providing a tamper-evident solution for enhanced food safety and protection.

- **Can be sealed for tamper-evident protection**
- **Recyclable, compostable¹, and made from 100% recycled fibers**
- **Includes space for a custom label**
- **Available in two sizes for 24 or 30 eggs**
- **The 24-egg size is exclusive to North America**

¹: The 30-egg size is suitable for industrial and municipal composting facilities, but not for home composting. Please check locally, as facilities may not be available in your area.

Perfect fit

The perfect complement to your operations

Cascades' shipping boxes are made from recycled cardboard. They are available in various sizes and are customizable.

NEW!

Capture attention on the shelves!

A new packaging solution has hatched!

**From farm to factory,
through the store to your home**

If you are a processor :

- **Optimized solution for the entire packaging process, ensuring automation, operational efficiency, and reduced labor costs**
- **Increase in available warehouse space***
- **Reliable and experienced engineering partners and technical support, available at all times through a single point of contact**

* Compared to moulded pulp cartons with cardboard tops.

If you are a retailer :

- **Simplification of merchandising with "case pack ready" packaging**
- **Innovative and attractive product that avoids unnecessary openings by showcasing eggs through the packaging**
- **Solution that meets consumer expectations regarding sustainable development**

If you are a brand owner:

- **Display area for enhanced storytelling**
- **Customization possibilities, printing, and cutting, with expert design support available**
- **Achieve sustainability goals through the packaging solution. Certainly, a beautiful story to tell.**
